

The Gingerbread Learning Center

A Special Education Pre-School For Children Ages 0-5

January 15, 2015

To Whom It May Concern:

I am writing this letter to commend the service and promptness of the staff at **BREEZIN HVAC, INC.** The Gingerbread Learning Center, Inc. has been their customer for over 20 years and they have been able to take care of all aspects of our heating and air conditioning systems whenever we call.

Our school is a special education non-profit preschool and as such, our children cannot afford to be uncomfortable with lack of heat in the winter and air conditioning in the summer. Shawn Montague, Owner of Breezin, always made sure that his staff covered our school in any emergencies such as a broken parts that needs repair and of course, maintains the systems often. He makes sure that someone comes to the school the same day or within 24 hours.

We have an excellent relationship with Breezin and plan to continue using them in the future.

Sincerely,

A handwritten signature in cursive script that reads "Dennis Mosesman".

Dennis Mosesman, M.S., M.S.Ed.
